

We realize that you have many options in continued education courses, and even Botox specific programs. These are a few of the reasons that the Dentox program stands out from the competition:

- 1. \$1500 income potential in 5 minutes of treatment time - the most productive clinical time bar none**
- 2. No anesthetics, no drills, no blades, no vacuum, no staff required**
- 3. Patient acquisition & annuity - proven marketing techniques to acquire patients and keep them coming back to pay for more**
- 4. The most effective and desired treatments bar none (who wants periodontic implants if they can be avoided?)**
- 5. 3 high income producing courses in 1 location and 1 day – the most valuable CE time of any course**
- 6. Quality experienced educators – including the doctor named on the treatment and drug patents**
- 7. Live, hands-on – not a webinar. Bring a patient, watch live treatments and confirm techniques on foam heads**
- 8. Bring your own (FDA approved) materials – no one will be trying to sell you anything (we provide disposables)**
- 9. No mandatory “memberships” - we will not sell or share your data**
- 10. Additional educational support before and after the program – watch Dentox webinars and earn up to 18 CE credits**
